

Construction and Engineering Law

Kreisson is an innovative and progressive law firm, which provides legal services to the Building, Construction and Engineering industries.

Our focused and unwavering commitment to achieving optimal commercial outcomes for our clients sets us apart. Our lawyers are determined and concentrated on meeting our clients' project objectives and possess the necessary breadth of legal and practical expertise to advise and represent clients in all types of building, construction and engineering disputes and risk management.

Engaging both strategic and practical approaches Kreisson ensures that every task is completed diligently and in the most cost-effective and efficient manner. We pride ourselves on our approach to meeting the needs of our clients, whether they are a large corporation, a privately owned enterprise or an individual.

OUR KEY SERVICES

We have the experience, expertise and resources to assist our clients in the Building, Construction and Engineering industries through:

- All forms of litigation, mediation, arbitration, reference hearings and expert determination
- Complex construction and engineering disputes including domestic and cross-border disputes in the context of litigation and domestic and international arbitration
- Advice and representation for procurement and dispute-based matters in infrastructure, resources and oil and gas projects
- Alternative dispute management and resolution strategies
- Home Building Act and residential building issues
- Building and Construction Industry Security of Payment Act (SOPA) Adjudication proceedings and related processes throughout Australia
- Contract drafting and risk analysis
- Work Health and Safety issues
- Owners Corporation disputes and defect claims
- Delay, disruption and loss of productivity claims, variation, defects and latent condition disputes

In the preparation of claims, we rigorously test the evidence in order to substantiate the legal positions in readiness, where relevant, for litigation and to audit the merit of the case.

The Kreisson approach results in services that:

- offer relevant, tailored solutions to our clients;
- are delivered through clear communications;
- creates measurable value for our clients;
- are a unique combination of innovation, consistency and dependability.

OUR EXPERTISE

Our team and strategic alliances are well experienced to project manage and handle all major disputes.

We approach Construction and Engineering disputes with passion, lateral thinking and efficiency in order to achieve a positive and cost-effective outcome for our clients. Our lawyers offer a depth of experience in technical based industries including Mining, Oil and Gas, Construction and Engineering and Infrastructure. In addition, our team come from varied backgrounds of working in-house as part of the legal team for major multinational corporations, including previously experienced builders and engineers as well as private practice lawyers.

We assist clients at various stages of the legal process including contract drafting and management of risk and dispute resolution through strategic advice as well as preparation and representation during contentious proceedings.

Excellence is key to the Kreisson philosophy and culture. We create practical legal solutions for the construction and engineering industry. We connect those solutions with our clients' business objectives to deliver commercial outcomes and risk minimisation.

We would welcome the opportunity to discuss ways in which we can work with you.
